# LT8 Series

## T8 LED Tube

### Features & Specifications:

The FSC T8 LED Tube is the most qualified replacement for a conventional fluorescent T8 on the current market. It's milky lens makes the FSC T8 LED emit very eye-comfortable light without any light spots. They adopt quite a number of SMD LEDs as a light source, which helps maintain their competitive brightness. Well-suited for retail, commercial lighting and widely used in many shopping malls, supermarkets, offices and restaurants.

- Even color and non-glare beams
- Most qualified replacements for conventional fluorescent
- Easier retrofit with integrated power supply
- 50% Energy saving
- Good light quality and good heat dissipation
- Minimal maintenance costs
- Green and eco-friendly lighting source without mercury
