### MICRO SHAPE WITH MACRO LUMINOSITY

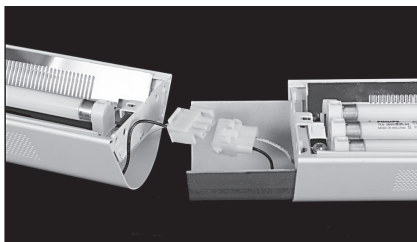

Series 7 adds a unique dimension to any area. Utilizing T5 or T5-HO technology, Series 7 packs a tremendous lumen package into a micro shape distributing approximately 97% uplight and 3% downlight. Straight rows are assured by Finelite's steel die-formed interlocking aligner bracket creating seamless, uninterrupted beauty. Tolerances are held to 0.005".

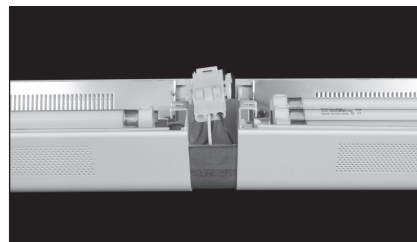

Fixtures are pretested at the factory, and all row fixtures are supplied with pre-installed electrical quick connect mating plugs. Fixtures installed on-grid are supplied with all necessary hardware, including the T-Bar clips. Installation is much faster than with any other type of approved mounting method, lowering the project cost. Fixtures can be supplied from the factory pre-lamped, and every fixture is shipped in a protective plastic sleeve to keep it clean until project completion. Standard

support cable is stainless steel, supplied with plated hardware. Semi-adjustable and fully adjustable lengths available. Finelite white is standard, 185 additional finishes using Tiger Drylac's RAL color chart are available as an option. Emergency battery back-up and other options are available. The micro shape of Finelite's Series 7 together with tremendous light output offers unparalleled sophistication, performance, and value.
