

WhisperSense™

VENTILATION FAN

FV-08VQC5, FV-11VQC5

WhisperSense-Lite™

VENTILATION FAN

FV-08VQCL5, FV-11VQCL5

- **Exclusive Dual Sensor Technology** reacts to both motion and humidity, automatically turning the fan on when needed. No effort is required because the fan does all the work for you.
- Built-in **SmartAction® motion sensor** automatically turns on when you enter the room. No more forgetting to turn the fan on with our intelligent technology.
- A built-in **humidity sensor** detects a rapid rise in relative humidity (RH), automatically turning on the fan to remove excess moisture and helping to prevent mould and mildew.
- The **adjustable delay timer** can be set from 30 seconds to 60 minutes and activates when motion is no longer detected or when humidity levels are below preset levels.
- Already **remarkably energy efficient**, our fans also have an auto shut off feature that can help eliminate unnecessary energy use and further reduce energy costs.

Three ways the fan can function.

- Motion on/Motion off
- Motion on/Humidity off
- Humidity on/Humidity off
 - Humidity switch is adjustable from 30% to 80% and factory set for 50%
 - Timer switch is adjustable from 30 seconds to 60 minutes and is factory set for 10 minutes

Design and specifications subject to change without notice.

Ideal applications:

- Ideally suited for kids bathrooms, commercial applications such as gas stations or strip mall bathrooms.
- Hands-free for applications such as assisted living facilities or handicap accessible restrooms.

Additional Benefits:

- Effortless, because the fan does the thinking for you.
- Can save money on installation as no switch is needed.
- Easy Installation (double hanger bar system).
- Rust proof paint treatment on galvanized housing.
- Built-in damper to prevent back draft.
- 4" or 6" dual duct adapter included.
- 3-year warranty.
