Kelly SO1 Pendant Light by Studio Italia Design | YLighting

Design by Andrea Tosetto, 2012/2013.  
By Studio Italia Design.

The Kelly SO1 Pendant Light is a beautiful mix of organic and industrial forms. This half dome metal pendant features laser cut details that evoke an image of leaves falling from a tree, and create a unique pattern of light. An inner glass diffuser helps distribute the light into a warm ambient glow, while still providing direct downlighting. Choose between a Matt White or Coppery Bronze finish.
